About Me

I am seeking a challenging position as a Developer in a dynamic organization where I can utilize my programming skills and passion for technology to contribute to innovative projects and drive impactful solutions.

Experience

PT. Inovamedika Solusindo – Bandung | Full Stack Developer   **2023 - 2024**

- Developed and maintained 5 applications daily using PHP with the Yii framework, ensuring optimal performance and scalability.
- Managed PostgreSQL databases for healthcare systems, implementing efficient data storage and retrieval strategies.
- Created and integrated APIs for various modules, including patient registration, appointment scheduling, outpatient and inpatient services, emergency care, human resources, finance, insurance, hemodialysis, medical records, and BPJS-related functionalities.
- Conducted thorough bug fixes and improvements to enhance system functionality and user experience.
- Designed and implemented new features to meet evolving user needs and improve overall application performance.
- Handled application issues for PPI, E-asuransi, BPJS, and SIMRS, addressing bugs, improvements, and new feature requests.
- Regularly managed 5-9 tasks across these issue types based on requests from hospital clients/users.
- Worked on 15 hospital projects, including :
  - RSSL Lamongan
  - RSWM Semarang
  - RSCMS Surabaya
  - RSWB Surabaya
  - RSWP Palu
  - RSAWS Samarinda
  - RSIB Balikpapan
  - RSABE Papua
  - RSLB Lubuk Basung
  - RSIH Garut
  - RSIP Pati
  - RSSA Malang
  - RSWS Surabaya
  - BMB Bali
  - E-Klinik Brawijaya
- Utilized technologies such as JavaScript, jQuery, AJAX, API integration, Socket.io, Git, GitHub, Bitbucket, HTML, CSS, and Node.js to deliver high-quality software solutions.

PT. Astra Honda Motor – Jakarta | Operator leader & Robotic controller   **2019 - 2021**

- Oversaw and managed production processes, responsible for 3 manufacturing robots and 7 CNC machines, including 2 turning machines, 2 drilling machines, a leak tester, a boring machine, and a honing machine.

- Ensured the highest standards of quality control throughout the production process, focusing on optimizing efficiency and reliability of production robots.
- Coordinated all activities related to machine operations, successfully meeting a daily production target of 400 machines while adhering to strict safety and quality standards.
- Led a team within 6 members to troubleshoot issues and drive continuous improvement initiatives, enhancing overall production performance.

Education

Universitas Informatika dan Bisnis Indonesia, Sistem Informasi   **2021 - 2025**

I am currently pursuing a degree in Information Systems and am in the process of completing my final project (thesis). Throughout my studies, I have gained extensive knowledge and practical experience in various programming languages and frameworks, including C++, Java, PHP with Laravel and Yii, Dart with Flutter, Python, Data Mining, Data Visuallization with Python, RDBMS such as MySQL, postgreSQL and Oracle. Additionally. These skills serve as a strong foundation for my career in software development and technology.

Skills & abilities

- HTML, CSS
- JavaScript, PHP, Python
- ReactJs, NodeJs

- Laravel, Yii
- PgSQL, MySQL, Oracle
- Git

- API
- English, German
